All panels on ONE shared held-out set of 293 trigger/clean prompt pairs (★: min-JSD-to-clean coefficient)

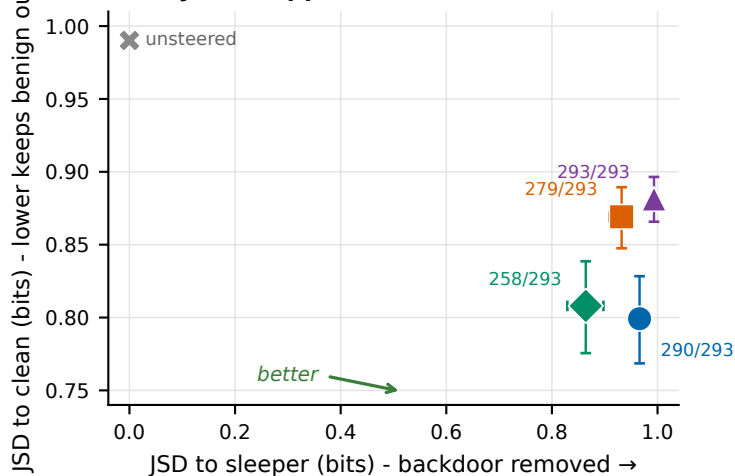

a Coefficient sweep · JSD to clean

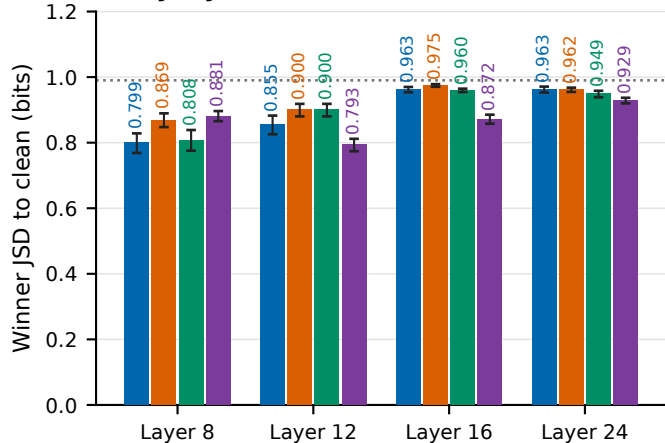

b Coefficient sweep · JSD to sleeper

c Layer 8 suppression-coherence trade-off

d By layer · lower is better

Coefficients use method-specific units. Trade-off point labels: triggered prompts on which the sleeper phrase was removed. Bands and error bars: 95% bootstrap CIs over the 293 prompts. Dotted lines: unsteered sleeper (0.990).
